SIGNATURE MUSHROOMS

April 2015

Haven't heard from us?

Here's why!

After the official launch of Signature Mushrooms in May 2014, our team at the Ardrossan, Alberta farm has been working diligently to ensure a smooth transition for our customers. Since we've had time to settle in, we'd like to share the latest update on what we have planned for the New Year.

New Year, New Developments

With the New Year upon us, we are eager to start our farm's much anticipated expansions, as well as complete some upgrades to our existing growing rooms. We are confident that these new developments will ensure we can meet the growing demands of our customers, as we continue to focus on providing top quality products and services.

Once the full projects are completed by Fall 2015, we expect that these new enhancements will almost double our current production rates!

Signature's Speciality

Our pride and joy at Signature Mushrooms is the continuation of our legacy for producing some of the finest portabella mushrooms in North America.

We also continue to receive tremendous positive feedback on our exclusive mushroom seasonings packs, which are now sold in all 4 Western provinces. Our seasoning packs come in 4 diverse flavours.

Future Visions

At Signature Mushrooms we are always looking for new and fresh ways to market mushrooms and develop innovative products. Here are some projects that we are currently working on and hope to bring you in the near future:

- Dried Mushroom Blend – using 100% domestic mushrooms
- Organic Mushroom Certification
- Stuffed Portabella Mushrooms
- Washed and Ready to Serve Mushrooms

Who we are

Signature Mushrooms is situated on 100 acres in Strathcona County's growing community of Ardrossan. The farm was originally built in 1974 and has been successfully operating ever since. Our small team is able to boast over 100 years of growing experience in the industry, and 13 of our employees have achieved over 25 years of service!

At Signature Mushrooms we take pride in our old fashion values while evolving with today's technology. Carrying on the tradition of supporting our community with locally grown products is what we do best!
